

**Key Investor Information**

This document provides you with key investor information about this share-class of the sub-fund within Alessia SICAV. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

**Alessia - VOLCOR Beta Zero, a sub-fund of Alessia - Q  
(ISIN: LU1238726811)**

**Management Company: PURE CAPITAL S.A.**

**Objectives and Investment Policy**

The sub-fund's investment objective is to seek returns correlated to the European equity markets.

The sub-fund is actively managed and is not managed in reference to a benchmark.

The sub-fund mainly invests in stocks of the Stoxx 600 index and in the Eurostoxx 50 index. If efficient, the exposure to these stocks and financial markets may be (potentially) hedged by opening positions in options and futures on Stoxx 600 and Eurostoxx 50. The sub-fund's strategy aims at

extracting positive alpha from the European stock picking activity while minimizing at the same time the overall beta of the portfolio.

The investor may subscribe, convert and redeem shares on each bank business day in Luxembourg.

These shares are capitalisation shares. Income and capital gains are reinvested.

This sub-fund is appropriate for investors seeking short-term capital growth.

**Risk and Reward Profile**

 The risk and reward indicator describes the fluctuation risk of the net asset value per share and may shift over time.

The calculation of the risk indicator is based on estimated and historical data, which might not be a reliable indication of the future risk profile of the sub-fund.

The lowest category does not mean a risk-free investment.

The category 4 means a moderate risk and consequently moderate potential gains and losses.

**Several types of risks are not completely taken into consideration by the synthetic risk indicator and can influence the net asset value:**

- **Liquidity risk:** Problems of liquidity on the financial markets being able to affect the purchases and sales of positions of the Funds.
- **Counterparty risk:** If a counterparty defaults and cannot honour its liabilities, the value of the Funds could be influenced negatively.
- **Operational risk:** Failures in the operational processes being able to influence the value of the Funds negatively.

**Additional information concerning the risks of investment in the sub-fund is indicated in the corresponding section of the prospectus of the Fund which is available at the registered office of the Fund and on the website [www.alessia.lu](http://www.alessia.lu).**

## Charges

The charges paid are used to cover the costs of running the share class of the sub-fund within the UCITS, including the costs of marketing and distributing units. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	1.82%
Charges taken from the fund under certain specific conditions	
Performance fee	20% of the performance if the absolute performance during a calendar year is positive. There is an absolute High Water Mark*.

\*A High Water Mark is the highest net asset value for which a performance fee has been paid since the inception of the fund.

The entry and exit charges shown correspond to a maximum percentage which might be deducted from the investor's capital invested into the Fund.

In some cases, the investor might pay less. The investor may contact his financial adviser or intermediary to be informed of the actual entry and exit charges.

There is no charge for the exchange of some or all of your shares for shares in a share class of the same sub-fund or another sub-fund.

The ongoing charges relate to the annual charges. They were calculated on December 2021. The ongoing charges may vary from year to year. This percentage does not include the performance fee and securities transaction charges, except for charges for the purchase or sale of target funds for this sub-fund.

Performance fee for 2021: None.

**For further information concerning charges, please consult the heading "Expenses and Fees" of the Fund's prospectus, which is available at the registered office of the Fund and on [www.alessia.lu](http://www.alessia.lu). Additional information concerning the performance fee is also available in the prospectus.**

## Past Performance

Past performance is not a reliable indicator of future results.

All charges and fees, except for the entry and exit charges, were taken into account.

Annualised performance is calculated after deducting all charges taken from the Share Class.

The past performance was calculated in EUR.

Alessia - VOLCOR Beta Zero was created in March 2011.

This share class was created in September 2015.
